Looking at Religious Radicals

By 2013 Maurice Barbanell

This religious radical in England seems to be creating more and more problems.

There will always be radicals. There is in every religion extremists who are out to destroy the equilibrium. In his defence he is very firm in his belief that what he is doing is correct.

By killing another human being, another soul.

You cannot kill another individual but they removed people from the Earth Plane. They removed the physical being. They did not kill so therefore do not concern yourself because there will be many such individuals who will make the news. Why do you think they are doing it? They are doing it for their own self aggrandisement but even though they are doing it for their own self aggrandisement they are also in part doing it because they truly believe in what they are doing, even though what they are doing and what they are thinking is totally incorrect. They personally do not consider that. They consider that what they are doing is righteous. Can you understand that?

Yes but...

I didn't say it was right!

Thank you. So not much has changed has it?

Nothing has changed. It is merely the situation which is slightly different. The radicals have been around from time immemorial and they will not cease to exist until the Earth Plane has been truly cleansed. But do not hold your breath. This will not happen for many hundreds of your visitations to the Earth Plane. That is if you feel it necessary to revisit the Earth Plane. I sincerely hope that you do not ever have to visit the Earth Plane again. That is my true wish for each and every one of you. Each and every one of you I wish you to have purified yourself to such a state that there is no necessity for you to return to the Earth Plane unless you are returning as a teacher. And then of course the situation is different.

The Nazarene obviously had no need to return to the Earth Plane. It was his job. Prince Siddhartha had no need to occupy the Earth Plane. Mohammed had no need to occupy the Earth Plane. So many others, they do so for the betterment of mankind.

There are many masters who are walking the Earth Plane as we speak in total obscurity, total and absolute obscurity, but in the small area that they are dealing with they are making a change. It might only be for 1, 2, 3 people but that is all that is required because from that nucleus it can spread. How do you think the teachings of the Nazarene spread? Exactly the same way. People talked, people heard the teachings and repeated them.

You don't need multitudes.

Not initially. That is a problem that a lot of people on the Earth Plane have because of the media exposure which can be achieved they think that the only way that they can make their mark in society is to be a media personality. There are people who are utilised. This is the case in the Americas and there are many clairvoyant, clairaudient, very gifted individuals who are utilised and why do you think this is necessary? It is necessary to set people's minds thinking because once you get a realisation that the Earth Plane is not the be all and end all, that there is life beyond the Earth Plane then the reality of life can be instilled into your thinking. The reality that the Earth Plane is significant for the very small amount that it can be utilised but there is a greater world out there.

They only have to look at the Summerland as being the epitome of what has to be achieved because in most people's eyes it is the epitome. It is true heaven, true bliss and therefore that reality is what we try to instil into their mind. It is only when they have a clear understanding that the Summerland exists and that your soul continues that the enlightenment that there is life beyond can be made, but there is no point in describing to people something which is beyond point of reference and understanding. They can understand that there is a place called Heaven, a place called the 7th plane, beings of the Heavenly Host. They can understand that but the reality is far too much of a step to fully be comprehended. So you look at the Summerland, you look at the higher levels of the Summerland and compared to the Earth Plane it is Heaven. It is total bliss. It's only when you get here you realise that your bubble needs bursting again because it isn't bliss. It is merely the first step and then when you move forward you then put the Summerland, the Earth Plane, into reality.

You have been advised that there are other planes, other planets, but it isn't something that you need to concern yourself with until you are in the 6th plane because until you get to the 5th and 6th planes the reality of beings in other spheres is not significant apart from the academic knowledge that they exist the same way as an academic knowledge that the Heavenly Host and the 7th plane exists, and more than that you do not have to give it any other thought.
